

V29/33

A JOURNEY OF QUALITY

A DECADE OF RELIABILITY

The V29/33 has all the characteristics one has come to expect from a Euro Coach vehicle; quality, reliability, durability, solid construction, economy, value and passenger satisfaction to name but a few.

Over the last 10 years the V model has established a proven track record in all these areas making it a firm favourite among operators, drivers and passengers for its cost effectiveness, on-the-road stability, comfort and driving experience.

The V29/33 is a result of quality craftsmanship and solid construction. Its timeless design lends it an air of durability and longevity, while our attention to detail delivers a vehicle that represents quality, performance and staying power.

If you are looking for a coach that combines affordability with long term performance, then sit back, relax and experience the V29/33.

The journey has just begun.

OPERATOR CONFIDENCE

Until now it has always been about arriving at your destination. Now it is all about how you get there.

Step on board the V29/33 and you'll immediately get a sense of space, comfort and craftsmanship. From the ergonomically laid out driver's cockpit to the feature rich interior, everything is geared towards your passenger's comfort, safety and a job well done.

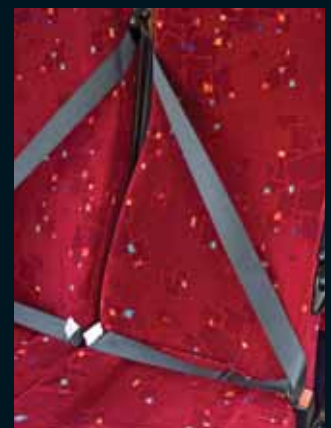

DRIVER SATISFACTION

A driving environment that allows you to focus on what's in front of you, as well as what's around you is more than a luxury. We believe it is a necessity. The clean, user-friendly controls, easily accessible and ideally positioned in the driver's field of vision, are nestled in a rich walnut dashboard and give the driver total operational control - whatever comes your way.

We've taken care of the little things too with two personal lockers, driver's blind and heating system.

PASSENGER COMFORT

With its soft materials, individual armrests and fully drawn curtains, the travelling area of the V29/33 is particularly appealing. Spacious luggage racks and individual service units, containing fully adjustable air-conducting vents and reading lamps, provide your passengers with their very own comfort zone on those short or long trips.

TECHNICAL DATA V MODEL
